## MANY CHOLERA CASES

### St. Petersburg Stricken by the Dread Disease.

### 115 DEATHS IN 24 HOURS

Municipal Administration Under Fire From Public Charged with Inefficiency in Handling the Cholera Epidemic in Empire.

St. Petersburg, Sept. 19.—Three hundred and five cases and 115 deaths from the Asiatic cholera have been reported for the twenty-four hours ending at noon Thursday.

The municipal administrations, it is said, are under fire from all sides for their criminal inefficiency in handling the epidemic and for their failure to make adequate preparation for hospital, ambulance and sanitary services. Although they had ample warning of the coming disease, no effective steps were taken to stamp out the scourge, even the elementary precautions of disinfecting and cleaning were neglected, it is said. A recurrence of the outbreak in the spring in even greater proportions is considered inevitable.

### LURED TO HER DEATH.

Young Woman Shot to Death for Refusing to Elope, It is Said.

Oklahoma City, Okla., Sept. 19.—Lured to a lonely spot in Central park addition Mrs. Harry Pearson, aged 21, was shot and fatally wounded by Harry Parker, aged 28, a grain inspector from Iola, Kan. Parker escaped.

According to a statement by Mrs. Pearson before her death Parker took her to see some property for which he wanted her to act as agent.

When they reached an out-of-the-way place he asked her to fly with him to Mexico. She refused, and it is said he shot her three times, took her diamonds, valued at \$200, and fled. Mrs. Pearson crawled to a house, a quarter of a mile away, where she told the story of the tragedy.

### TAFT CANNOT ATTEND.

Proposed Meeting With Bryan at Banquet Falls Through.

Chicago, Sept. 19.—The contemplated meeting of Judge Taft and W. J. Bryan at a banquet here Oct. 7 has fallen through, according to a statement made by Chairman Dixon, of the Republican speakers' bureau.

"Judge Taft on Sept. 23 will address the Independent Railway Men's Taft Club in Chicago," said Mr. Dixon, "but his itinerary will not allow of his speaking at Chicago October 7."

It is said that it was Judge Taft's wish to speak at the banquet, but that the speakers' bureau was not officially consulted in making the engagement.

Mr. Bryan, however, will attend the banquet, which will be given by the Chicago Association of Commerce.

### FIGHT WITH CROOKS.

Man Who Broke Into Mark Twain's Residence Caught by Police.

Redding, Conn., Sept. 19.—Two burglars who broke into the residence of Samuel L. Clemens (Mark Twain) in Redding Thursday night were captured on a railroad train between Redding and New Haven after a desperate fight in which Deputy Sheriff Banks of Redding was shot in the leg.

The prisoners are believed to be professional crooks who came from New York for the express purpose of robbing the Clemens villa.

Fleet Sails for Manila, Albany, Western Australia, Sept. 20.—The American Atlantic fleet under the command of Rear Admiral Speery left here Friday afternoon for Manila, 3,000 miles away, where it is due to arrive Oct. 3 or 4. The British Connection did not leave with the other vessels but departed at midday to overtake the rest of the fleet. She was delayed by sailing operations.

### POLICE STORMED THE PLACE.

#### Had Desperate Revolver Fight Before Capturing Their Men.

Chicago, Sept. 19.—A desperate revolver fight resulted when a squad of police attempted to force entrance into a house at Front and Carpenter streets, where John Kapuska, wanted on a charge of two murders, was supposed to be in hiding.

Three men were arrested and during the fight Kapuska escaped.

Kapuska was sought for the murder of John Greigel and Louis Falardau. He is also known by the name of Krueger.

Thursday night the police received word that the house at Front and Carpenter streets was barricaded and it was believed that Kapuska was inside. A squad of police were dispatched to the scene and surrounded the house. A demand that Kapuska surrender was answered with a fusilade of shots from the inside.

The police replied with a volley and then prepared to storm the place. A few moments later it became apparent that the occupants of the house had used all of their ammunition and the police charged, smashed in the doors and captured three. It was at this time that Kapuska escaped.

### OPTION BILL EXCITES INTEREST.

#### Like Georgia Indiana Has a Special Session of Legislature.

Indianapolis, Ind., Sept. 19.—A special session of the sixty-fifth general assembly of Indiana convened Friday under a call from Governor J. Frank Hanly to consider the following subjects:

A county local option bill; a bill giving the governor additional authority to prevent destruction of property by night riders in southern Indiana should any be threatened; a bill to repeal a grant made to the Vincennes university of \$120,000 by the last legislature, and a bill to correct an error in a bill passed by the last legislature by which unexpended funds of state institutions would revert to the general fund on September 20.

The subject of absorbing interest is the county option bill which is favored by the republican platform and is being supported by Governor Hanly and the republican members with a few exceptions. Democrats are opposing the measure with a few exceptions.

### SCHOOLBOY TAKES HIS LIFE

#### Went to Cellar Whistling Cherrily and Was Later Found Dead.

New York, Sept. 19.—For some inexplicable reason Silver Weill, sixteen years old, a schoolboy, committed suicide by hanging himself in the cellar of his home in Mount Vernon. He is the youngest suicide in the Mt. Vernon police records.

Young Weill was sent to the cellar to arrange the coal bin for a consignment of coal Thursday. He was in good spirits and the last heard of him he was whistling a tune. When he failed to come up stairs his father went to the cellar and found him hanging from a crossbeam. He had used a clothesline to hang himself.

### SHOT FROM AMBUSH.

#### Little Girl Killed by Rifle Ball Intended for Her Father.

Columbus, Ga., Sept. 19.—Elvin Haden, ten years of age, is dead as a result of a rifle ball fired from ambush at her father, T. J. Haden, a farmer, while he sat on his porch at his home in Lee county, Alabama, 4 miles from Columbus, Tuesday night. The assassin is unknown.

The bullet narrowly missed Haden, going through a wall and through the body of the child, who died Friday morning.

### WILL Hold Cotton Seed.

Montgomery, Ala., Sept. 19.—Local farmers have entered into a movement to hold cotton seed off the market until the prices are better, or if they do not improve in price, to put them in the ground again.

There is a feeling that the mills are getting together to keep the price down and the farmers are talking of a meeting to get together on their side of the question.

## ACCIDENT TO AIRSHIP

### Wright's Flying Machine Turns Turtle and Falls to Earth.

### ONE MAN FATALLY INJURED

#### While Making a Two-Man Flight a Propeller Broke and the Machine Fell Selfridge, Wright's Companion, Being Fatally Injured

Washington, Sept. 19.—After having drawn the attention of the world to his aeroplane flights at Fort Meyer, and having established new world's records for the heavier than air flying machines, Orville Wright Thursday met with a tragical accident while making a two-man flight.

The aeroplane was accompanied by Lieutenant Thomas E. Selfridge, of the signal corps of the army. Lieutenant Selfridge was fatally injured and died at 8:10 o'clock Thursday night. Mr. Wright was seriously injured, but is expected to recover.

#### Machine Overturned and Fell.

While the machine was encircling the drill grounds, a propeller blade snapped off, and hitting some other part of the intricate mechanism, caused it to overturn in the air and fall to the ground, enveloping the two occupants in the debris.

Soldiers and spectators ran across the field to where the aeroplane had fallen and assisted in lifting Mr. Wright and Lieutenant Selfridge from under the tangled mass of machinery, rods, wires and shreds of metal. Mr. Wright was conscious and said:

#### "Oh, hurry and lift the motor."

Lieutenant Selfridge was unconscious and had apparently struck the ground with great force. His head was covered with blood and he was choking when the soldiers extricated him from under the machine.

#### Mechanists Heartbroken.

The mechanics who helped Wright in the work on his machine are almost heartbroken over its wreck. Mechanic Taylor said that when the aeroplane fell he expected to find Orville dead. "None knew better than I," said he, "the heartaches and sleepless nights this aeroplane has cost the two Wright brothers. It is too terrible to think about."

Mechanic Furness said that he saw Orville trying hard to get the airship level again, after the propeller broke, but that the one propeller that was revolving pulled the machine downward and to the left.

"It was going too strong," said he, "to restore the equilibrium of the machine. It was most distressing that this should happen just at the zenith of Wright's success. He had bright prospects of becoming a very rich man."

Mr. Taylor in discussing the accident said he could not see how the two propellers could have come together. The angle line was in perfect condition before the flight and the steering plane's main plane was all right.

### WRIGHT IN THE HOSPITAL.

Washington, Sept. 19.—Lying in the Fort Meyer Hospital with a fractured thigh and ribs, Orville Wright, the aviator who fell with Lieutenant Selfridge in Thursday's aeroplane accident is making a manly fight for recovery.

Through the night there was much anxiety over the injured aviator's condition, but as dawn broke and no indications of internal injuries developed and as the attending surgeon after a call shortly after 8 o'clock announced that Wright was doing very well, there was great relief expressed by those who were watching the progress of the patient.

Wilber Wright, the brother of Orville, was notified Friday of the latter's improvement.

#### OTHER ACCIDENTS RECALLED.

Which Have Resulted from Man's Persistent Efforts to Conquer Air.

Washington, Sept. 19.—The tragic accident which cost Lieutenant T.

E. Selfridge of the United States signal corps his life Thursday is the most recent of many resultant from man's persistent effort to conquer the air.

Lilienthal, a German scientist, and M. Pilcher, another student of aeronautics, probably were the first martyrs to the cause of the heavier than air type of air craft. The former was killed in the summer of 1896 while experimenting with his "gliding machine," which is said to have furnished the first model for the Wright brothers. The latter met his death about the same time in a test of his own aeroplane. On September 3 last, Charles Oliver Jones, the Hammondsport, N. Y., aeronaut fell to his death from his dirigible balloon Boomerang, while giving an exhibition flight in Connecticut.

A spectacular accident to a mammoth airship at Berkeley, Cal., resulted in serious injury to sixteen men who narrowly escaped with their lives. In view of ten thousand people it ascended 300 feet when it suddenly burst and dropped to the ground with its crew of sixteen men.

One of the most remarkable escapes from death in aeronautical history was that of Gail Robinson, who sailed the Knabenshue airship at Springfield, O., July 13, 1907. Robinson fell 800 feet, the only mark of his experience being a small scratch. Everyone of the bystanders who witnessed his ascent expected to see Robinson dashed into a pulp. At first his machine shot downward so rapidly that it was difficult for the eye to follow him.

As he neared the earth, the machine slowed up and he reached ground safely. When the people flocked to the wrecked balloon, thinking to find Robinson a corpse, he was coolly lighting a cigarette.

### CAUSED EXCITEMENT.

#### Paper Presented at Congress of History of Religions.

Oxford, England, Sept. 19.—The international congress of the history of religions, the sessions of which began Tuesday, was aroused to a high pitch of excitement Thursday by the paper presented by Professor Paul Haupt, of Johns Hopkins university, Baltimore, in which he endeavored to demonstrate by a process of ethnological reasoning that Christ was not a Jew but an Aryan.

Professor Haupt's paper provoked the keenest discussion, but he refused to be drawn into racial arguments. Dr. M. Gaster, the noted Jewish writer and lecturer, was his most impressive opponent. He pointed out that in all their accusations, the Jews never reproached Jesus with a proselytic ancestry, and that the omission of such evidence was highly significant.

Not a single delegate supported the theory of Professor Haupt, which entirely failed to convince the congress.

### EAGLE ATTACKS CHILD.

#### Big Bird Tried to Carry It Away in Its Talons.

New York, Sept. 19.—While Blanch Cribier, three years of age, the little daughter of Fred Cribier, a summer resident of Hellertown, N. J., was at play near her home, a large eagle swooped down and attempted to carry the child away in its talons.

Cribier was nearby and the screams of his daughter attracted his attention. He fought off the bird and as it attempted to fly away, his brother, who had come up with a shotgun, fired and wounded the eagle. Its capture was then an easy matter.

The child was found to be unharmed except for a few scratches. The eagle, though peppered with shot, will live, and the Cribiers intend to keep it in a cage.

### New World's Record.

Nashville, Tenn., Sept. 19.—Immediately after the races were decided at the fair grounds Wednesday afternoon Ben Whitehead drove the two-year-old trotter, Al Stanley, a mile against time to 2:19. This is a new world's record for a two-year-old trotter on a half mile track. The former mark was 2:29, made by Al Stanley at Rochester, Tenn., several weeks ago.

## REPLY OF FORAKER

### To Charges Made by William R. Hearst at Columbus.

### AS COUNSEL STANDARD OIL

Senator Declares that He Didn't Represent Company in Matters Pending Before Congress or of Federal Interest

Cincinnati, Sept. 19.—That he had been several years an attorney for the Standard Oil company, terminating service before the federal prosecution of that concern, but that such employment had nothing to do with matters pending in congress or in which the federal government was interested, is the substance of a brief statement made Friday by U. S. Senator Foraker, in answer to the charges made by William R. Hearst in Columbus Thursday night. Senator Foraker's statement follows:

"I do not know whether the letters given out by Mr. Hearst are true copies or not, but I assume they are, for I was then engaged in the practice of the law, and was employed by the Standard Oil company as one of its counsel in connection with its affairs in Ohio, where it was attacked in the courts and in the legislature. "While I do not now recall the details, I remember that I rendered the company such service as I could, charged for it and was paid. "The employment had no reference whatever to anything pending in congress or to anything in which the federal government had the slightest interest.

"That I was employed, and presumably compensated for my services, was common knowledge at the time; at least I never made any effort to conceal the fact. On the contrary, I was pleased to have people know that I had such clients. "It had not then become discredited, but was considered just the reverse, to be employed by such corporations.

"That employment ended before my first term in the senate expired. I have not represented the company in any way since long before it was attacked by the federal government, nor since before, with full general knowledge. I was elected to the senate."

### GUESTS' NARROW ESCAPE.

#### Bayshore Hotel, Green Springs, Fla., Destroyed by Fire.

Jacksonville, Fla., Sept. 19.—The Bayshore hotel, at Green Springs, one of the largest hotels on the west coast, was totally destroyed by fire. The building was almost completely enveloped in flames before an alarm was given.

Several women were heroically rescued by men through windows. The hotel was owned by R. T. Youngblood, Tarpon Springs, and operated by T. Roy Young, Tampa. The insurance is small.

Atlanta, Sept. 19.—H. T. Inman purchased the Warehatcher furniture plant at public auction in the bankruptcy court of referee Percy H. Adams, paying for it the sum of \$220,000. The sale was made to satisfy creditors of the company. It is understood that a company is being formed which will probably take over the plant and resume operations.

Veterinarians Appointed.

Atlanta, Sept. 19.—Governor Hoke Smith has appointed the following veterinarians upon the Georgia state board of veterinary as provided for under recent legislative act: Dr. Thomas E. Jago, of Athens; C. R. Jolly, Atlanta; John R. Anderson, Macon; M. A. Morris, Savannah, and J. C. Newmarch, of Thomasville.

### Tsatsalat Elected Honorary Member.

St. Petersburg, Sept. 19.—Count Leo Tsatsalat has been elected to honorary membership in the faculty in the university of St. Petersburg.

# GAINESVILLE AND THE STATE'S EDUCATIONAL INSTITUTIONS OPEN THIS MONTH

Since the establishment of the East Florida Seminary in this city in the historic days of the lamented Col. J. H. Roper, Gainesville has been noted for her lead in educational matters, and she proposes to maintain that lead to the end of time.

The new University of the State of Florida has a faculty equal in every respect to that of any university in the South and offers as good advantages to young men to secure a collegiate education at much less expense. The University, at the head of which is Dr. Andrew Sledd, will begin the term of 1908-9 on September 30th, with the assurance of an increased enrollment over the last term.

From letters received by President Andrew Sledd, it is thought that the out-of-town attendance at the University will be much larger this year than ever before in the history of the school, and with the large number from the city proper who will enter it is thought the school will make an exceptionally fine showing.

Owing to the fact that the appropriations made for the University have not been available, there has not been the building there the past summer that was anticipated, but the management have built an electrical shop, which is one of the best equipped in the South and will prove of special value to the University.

Dr. Sledd and wife will this year live in the barracks with the boys in an effort to make it homelike to them, which will be gratifying to the large number who will have quarters there.

The athletic feature of the University will be well looked after by Coach Pile, formerly with the Virginia Military Institute, and who comes to the University highly recommended for the position assigned him.

#### The High School.

The Gainesville Graded and High School will open its doors to the pupils on September 28th.

The indications for the coming session are more favorable than last season, as the pupils will not be forced to be crowded as they have in the past season, owing to the new provision made by the trustees.

Under the new provision the pupils will be divided, the higher grades using the old Seminary building.

## NEW RURAL ROUTE STARTS NOVEMBER 2

Myron D. Jackson Will Have Charge of This Service.

#### AN ACCOMMODATION TO MANY

Route to Consist of Twenty-Six Miles and Will Traverse Thickly Settled Section, Giving Large Number Advantage of Rural Delivery.

The new rural route which was approved by the postoffice department several weeks since, will be started on November 2, the order to this effect having been received by Postmaster Lynch Saturday.

The new route will run in a north-easterly direction to Stringfellow's still, Bellamy and the school house on to Atlas, and returning will run southeasterly via McDavid's, Burnett's, Thomas and Shaw places, and will comprise in the route some twenty-six miles.

Myron D. Jackson will be the carrier and will assume his duties when the route is inaugurated on the above date.

This new route will prove one of the most profitable of the half-dozen in operation, as it will accommodate the largest number of people perhaps of the several that have been in successful operation for the past year or more in this neighborhood.

Other new routes may be started in the near future if the occasion demands more, but for the present it is thought that the half-dozen in operation will prove adequate to meet the requirements of the out-of-town people.

The University of Florida Opens on the Last Wednesday in Month, Sept. 30th.

## MISS TEBEAU SEPTEMBER 21

The Gainesville Graded and High School on Sept. 28.—Thirteen Teachers Engaged.

while the lower grades will utilize the regular school as they have in the past.

The school has in the past been compelled to turn away pupils owing to their cramped condition for room, but the new plan will enable them to give nearly 1,000 pupils the proper attention by the purchasing of the old Seminary building.

Indications now are that the attendance will be fully as large, if not larger, than it has been in past seasons, but as a good many families are yet out of the city an estimate cannot be made for about ten days, when many are expected to be in the city by that time.

Prof. W. H. Cassels has been selected as principal of this school, and the high class of work that he did at Alachua leads the trustees to believe that he will make even a greater success here. He has associated with him as assistants: Mrs. Ida J. Franklin, assistant principal; Miss Ellen Wallace, Mrs. W. P. Coffey, Miss Belle Moseley, Miss Bessie Carver, Miss Cyilla Kennedy, Miss Annie DaCosta, Miss Grace Ballis, Miss Fannie Mizelle, Miss Julia Kennedy, Miss Mabel Sanchez.

The work of cleaning the grounds and overhauling the buildings has already begun and everything will be in readiness by the opening day.

#### SEA ISLAND COTTON.

Savannah Market Quiet—Extra Choice Grades Most in Demand.

Savannah, Ga., Sept. 19.—The market was quiet, but steady. The grades most in request were extra choice and choice, with some demand also for fine and for fancy with full staple. This latter commanded the outside quotation. The inquiry appeared to be becoming more general as the volume of the movement becomes more liberal. Sales for the week amounted to 593 bales.

No material change is noted in the general tone of crop reports. Recently, however, there has been excessive rain in some sections, and it is apprehended that some damage may result, more particularly to the open cotton.

The following prices are based on factors' quotations and are revised weekly on Fridays:

city, surrounded by beautiful trees, rose-gardens, and play-grounds.

The buildings are comfortable, supplied with pure water, lighted with electricity, and warmed, at present, by open fire-places.

The health of the school is remarkable; no serious illness has occurred among the resident pupils since the opening of the school, which is now in its thirty-fifth year.

The aim of the school is to advance the pupil morally, physically, intellectually.

The discipline is firm, appealing to the inherent sense of right, and the love of the good, the true, the beautiful.

#### Union Academy.

Union Academy, the county graded and high school for colored students in this city, will open Monday, September 28. Prof. T. E. DeBose, who has so ably managed the work for the past five years, and of whom the colored people should be proud, has been reappointed principal. His ability, thrift and weight in the community as a leader of his people, together with the co-operation of his efficient faculty, the patrons of the school and those interested in education, should make this the best term in the history of education for the colored children of this city and county.

The yards are now being cleaned, buildings renovated, rooms put in order, and everything around is taking on a cheerful appearance for the opening day.

A splendid program will be presented, consisting of addresses by Dr. R. B. Ayer, chairman of the board of trustees of the property, Dr. J. A. Parker, Mrs. Bathune of the Industrial School for Girls at Daytona, and other prominent speakers will be present and address the school.

Prof. DeBose wishes a full attendance of the school at its opening. He also desires that the patrons and friends turn out in large numbers, because it is probable that the superintendent, Dr. J. L. Kelley, will be present sometime during the day. The names of the assistants for the term are as follows: L. A. Artson, Mrs. Amy L. Davis, Miss Susie A. Grant, Mrs. Christina E. Artson, Miss Emma P. Williams, Mrs. Meta M. Hearst, Mrs. Mamie E. Gardner, Mrs. Moseella A. Gipson, Mrs. Lucy L. Murrill and Mrs. Myrtle C. DeBose.

The work of cleaning the grounds and overhauling the buildings has already begun and everything will be in readiness by the opening day.

## S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acrid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.

## GAINESVILLE CAN GET ANOTHER MAN

Council Will Comply With Rules of Postoffice Department.

### BUSINESS JUSTIFIES INCREASE

Council Will Have to Have Houses Numbered and Streets Fixed Up to Insure This Additional Mail Carrier for the City.

The city is entitled to another mail carrier, and one can easily be put on if the City Council will meet the requirements of the postoffice department.

The business of the office is on a steady increase all the time, and the reporter was informed by Postmaster Lynch Saturday that if the council would do their duty this new man would be placed on the service at once.

In order to secure this new man the council will have to have the houses numbered and streets fixed up in certain sections, together with some minor matters, and the new man can be placed on at short notice.

The postmaster is doing his best to advance the Gainesville office at every opportunity, and in this matter he should have the hearty co-operation of the City Council, for if they will but order the necessary improvements made the service will be added.

This would give Gainesville four carriers, instead of three, and it would greatly facilitate the delivery of mail in the city. It would shorten the routes of the present carriers, and the people generally would secure even a better service than is now being rendered by the postoffice here.

#### MORRIS CARTER CAPTURED.

Was Under Bond for Selling Booze and "Jumped" Same.

Morris Carter, Jr., charged with selling booze, and who was under bond awaiting the last term of the circuit court, has been arrested in Valdosta, Georgia.

Sheriff Fennell received a wire from the chief of police of that city notifying him of the arrest Saturday, and left at once for the prisoner.

On his return here Carter will be compelled to serve his time in jail, as it will now be a hard matter for him to give another bond, as he "jumped" the first one.

#### Was Not Glisson of Here.

The telegraphic information relative to the killing of John Glisson, mention of which occurred in The Sun, was not the Glisson that formerly resided at Bronson and who is well known in this city. This John Glisson is located in Georgia, where he is doing a lucrative business at his trade of blacksmith.

### POLICEMAN OWENS SHOOTS AT CULPRITS

Sent in False Alarm From Box 73 Friday Night.

#### HAS THE GUILTY ONES IN VIEW

Awaiting Further Evidence to Make Arrest, But Is Positive He Knows Guilty Party Who Sent in the False Alarm.

Policeman Owens Friday night took a shot at the guilty parties who sent in the false alarm from Box 73, located at the corner of Roper and Alachua avenues, but without effect.

This practice has been indulged in too much of late, and the officer says that he will stop them if he has to send a bullet along to assist him in his efforts, and in this he is to be commended by the good people generally.

While he is not positive as to who really committed the deed, he knows all three of the people who were in the crowd and thinks he has about succeeded in collecting sufficient evidence to warrant him in making the arrest, and this will be done by Monday morning at the latest.

In the flight a bicycle was left under the oaks adjoining where the box is located, and this wheel is known by several people who can identify it if necessary.

Aside from the danger that these false alarms cause, it robs not only the firemen, but the citizens generally of their rest, and the guilty parties, if caught, should be handled to the full extent of the law, regardless of who they are.

Hereafter, if a fire occurs in East Gainesville the key to the box can be found at either Rev. S. B. Rogers' house or the residence of Geo. Doig, as Chief O'Neill is determined that he will not leave the box so the miscreants can gain access to it so easily in the future.

### Our Terms:

50c a week pays for \$10 worth.  
75c a week pays for \$15 worth.  
\$1.00 a week pays for \$20 worth.  
\$1.50 a week pays for \$25 worth.  
\$2.00 a week pays for \$40 worth.

That's Easy,  
Isn't It?

OUR semi-annual heart-to-heart talk is due, for the Fall is approaching and preparations for refurnishing occupy the mind. Now, suppose you have the cash. There is little wisdom in paying a cash house 25 per cent more than our prices, for we will take your money, if you insist, and will make you a very fair discount, but we'd just as lief you would open a charge account, subject to small periodical payments. We'll make the terms to conform with your revenue. Under any conditions, we assure you of the same goods for 25 per cent less, or at the same price we will give you 25 per cent better goods. This is no idle talk—there's a way to prove it. Don't wait until you have bought, but satisfy yourself, in advance of any promise to pay. Understand, you needn't buy because you look. Our salesmen will not urge you, nor persuade you. All we ask is that you do not skip us by. If you compare our goods—our prices—with all other offerings, your own good judgment will make you a customer of this store.

### We Furnish Four Rooms

Nestly, Completely and Substantially for . . . .

**\$119.80**

YOU PAY ONLY \$19.80 CASH—the balance on terms agreed upon—a little each week or a little each month. There's not alone the Furniture for the four rooms, but the floor coverings, the lace curtains, the pictures for the walls, lamp for the library, table, etc.—everything complete.

Handsome Dining-Room Furniture

is the pride of every household, and should receive in the beauty of the new designs in rich and handsome Sideboards, Buffets, China Cabinets, Dining Tables, Side Tables and Chairs as this score. Grand base—primes lowest.

**GET FAMILIAR WITH THESE.**

As there will be a large number of Presidential Electors on the ballot at the election in November it behoves Democrats to become familiar with the Bryan electors, which are as follows:

For Presidential Electors:

H. P. BAILEY.  
P. W. BUTLER.  
ROBT. E. DAVIS.  
GEO. C. MARTIN.  
SAMUEL PASCO.

Paste this list in your hat, so that when you are asked who the Democratic electors are you may be prepared to give the desired information.

One of today's ads. should "influence your next trip to the store!"

"Paying" for adequate advertising is usually the easiest thing about it.

The man who recently killed Constable George in the St. Petersburg jail and was himself killed by Mr. Belcher, was not a Greek, as stated in the news dispatch, but an Italian.

The Tropical Breeze, published at Port Myers for the past two years by W. E. Griffis, has suspended. It was truly a "breezy" publication and The Sun editor will miss it from his exchange table.

"Night riders" are warning ginnies in several States not to gin another bale of cotton, under penalty of having their ginnies burned to the ground, until the price of the staple reaches 12 cents. It is to be hoped that these lawbreakers will soon find accommodations in the jails.

Hon. John R. Mizelle, a former citizen of Orange county but now residing on the East Coast, a life-long Republican and leader in the councils of his party, has come out for Bryan. Mr. Mizelle was at one time United States marshal for this district and is well known to many of the older residents of Alachua county.

Our esteemed friend, General E. M. Law, editor of The Bartow Courier-  
Informant, a real general who gained his title by valiant service in the Confederate army, has been seeing visions of late, and following is his version of one of them: "A pious man once died and went to heaven. The day after his arrival an angel volunteered to act as his guide and show him the sights of his new home. Presently they came to a group of men each of whom had a ball and chain attached to his legs. The stranger, in a surprised tone, asked: 'Why, how is this? I thought there were no bad men in heaven.' The angel smiled sweetly and replied, 'Oh, those are not bad men, but they came from Florida, and we have to chain them or they would go back.'

**VOTING A RELIGIOUS DUTY.**

Church-goers should regard the exercise of the franchise as a religious function and should vote in accordance with religious precepts on every matter involving a moral question either in the issues at stake or in the personality of the candidates, declares the Rev. Charles F. Aked in the October number of Appleton's Magazine. Dr. Aked is pastor of the Fifth Avenue Baptist church, of which Governor Hughes is a member. Further than this, he asserts it is just as much the duty of a church member to attend ward meetings and to vote at the primaries as it is to take part in the affairs of his church or to cast a ballot in the election of a pastor.

According to Dr. Aked the proportion of regular church attendants who frequently stay away from the polls on election day and who seldom or never take part in primaries or local meetings for the election of delegates to conventions is larger than among any other class. These delinquents, he holds, are as much responsible for corrupt conditions of government or the election of unworthy men to public offices as are the heelers who buy votes to accomplish this result or the bar-room hangers-on who sell their ballots.

"The abuses that have arisen in the past," says The Appleton article, "from the interference of the church in politics have been due to the fact that religion was made political instead of politics being made religious.

Except under circumstances of extraordinary moral pressure the churches as churches cannot enter the arena of party politics. The church cannot become a caucus. Only the projection of a supreme moral issue can warrant a clergyman in publicly taking a position as a party man. He may be permitted in his own heart to pray for a party—if he is satisfied that it is not past praying for. But the church can and should undertake a more important function—one that underlies all law and government—the formation of righteous public opinion. The church cannot compel in this day and generation. If it cannot inspire it is because it is no longer inspired, and a church without inspiration is a corpse which people with decent regard to health should quietly bury.

The church must teach that a Christian can no more neglect the plain duties of citizenship than he can neglect to pay his debts. The religious man who stands idly by and sees American politics made a byword for dishonesty is neither religious nor a man."

In announcing suspension of The Tallahassee Sun the publisher informs his subscribers that he is making an effort to have the unexpired subscriptions carried out by Watson's Jeffersonian. Looks like L'Engle, as a parting shot, is trying to carry the State Populist. The Sun had a numerous list in Starke, ranging somewhere from three to six, and we shudder to think of what would happen to the Democratic ticket if all this horde of stalwarts should be suddenly and unceremoniously transferred to Watson.—Starke Telegraph.

If certain of our subscribers do not pay up soon we will be compelled to drop them from our list. The postal laws require publishers to discontinue all subscriptions over one year in arrears, and if you are among this number you must pay up if you desire The Sun continued to your address.

Many people of the far North look upon Florida today as did John Randolph of Virginia when the purchase of Florida from Spain was under discussion in Congress in 1818. He cried out from the floor, in his high, harsh voice: "Mr. Speaker, I am opposed to this measure. Florida, sir, is not worth buying. It is a land of swamps, and quagmires, of frogs, alligators and mosquitoes! A man, sir, would not immigrate into Florida. No sir! No man would immigrate into Florida—no, not from hell itself." If old John could come back to life now and spend a week at the Ponce de Leon, St. Augustine, Royal Poinciana, Palm Beach, or the Tampa Bay, Tampa, he would think that the knightly Courts of Europe had immigrated to Florida.—Ft. Pierce Tribune.

Residents of New York will recall the spectacular burning about a year ago of Sulzer's Harlem River Park Casino. Cement Age, New York, is authority for the statement to the effect that the owners, in deciding to rebuild, wished to eliminate entirely the fire risk and with this idea in mind, the new building which is now nearing completion was designed for construction in reinforced concrete. Engineers everywhere are giving the subject of concrete in the design of public buildings their earnest study as its known and demonstrated fire resistant qualities have made it an especially desirable material for all classes of public building construction where safety to human life is a factor in the design of a structure.

**A WOMAN TO BE PRETTY**

**Must Have Luxuriant and Glossy Hair, No Matter What Color.**

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the falling hair, and prevents baldness. Sold by leading druggists. ## MICANOPY NEWS.

Miccanopy, Sept. 19.—Dr. J. D. Watkins, cashier of the bank, has returned from a visit to his wife and children at Franklin, N. C.

Miss Lola Maude Smith will be Thrasher's milliner this coming winter.

Mrs. Rosenberger of Tacoma and her two daughters were in town shopping Tuesday.

Miss Lillian Banknight will return to her studies at DeLand in a few days.

Miss Kittie Carlton is taking her vacation in the mountains. We all wish her a good time.

J. H. Coffey of Waldo is here visiting relatives. He is a student of the Atlanta Medical College.

Mrs. Sue Feaster and John Shuford drove over to Rocky Point Wednesday to look after the former's property interests there.

During the past week Mr. and Mrs. A. G. Lamb removed to their home in the country. They will be gone a few months.

Mrs. J. H. Prater and niece, Mary Simonton, went to Gainesville on a shopping tour Tuesday.

Mrs. and Miss Winter, after a two weeks' visit to Mrs. Emerson, returned to their home in Leesburg Friday.

Mrs. Thos. McCredie and daughter, Miss Mabel, are spending some time at West Palm Beach. We wish them a happy visit.

J. W. Carter has returned from an extended visit to his old home in Kentucky. He reports a good time generally but says he loves Miccanopy just the same. We all do.

Miss Helen Holtzhausen has been suffering from fever for the past two weeks. We hope she will soon be well again.

Miss Susie A. Smith entertained in honor of her friend, Miss Banknight, of Washington, D. C., by giving a card party at her home Thursday evening. A select party of friends were invited and refreshments served. It is needless to say everyone enjoyed the occasion to the utmost. Miss Banknight came a week ago and expects to remain all winter.

The new ward school house in Miami has been completed and accepted by the trustees. It cost \$9,600, being built of artificial stone.

Brooksville is rejoicing over the prospect of a large brick factory, which will move there from Townsend, Ga. It will have a capital of \$40,000.

Everything is ready to proceed with the proposed cigar factory for St. Augustine, except the collection of the money and the signing of the contract.

David Abraham, who was arrested in Jacksonville and charged with selling impure meat, was found guilty and fined \$20 in the municipal court in that city.

The Bayshore Hotel at Green Cove Springs, one of the largest hotels on the West Coast, was totally destroyed by fire early Thursday morning, forty guests having narrow escapes.

The Daughters of the Confederacy of Lakeland have erected headstones to all the graves of the Confederate dead in the city cemetery. A short program was carried out on the occasion.

The Lakeland high school opened on Monday, under most flattering conditions. The enrollment on the opening day was 585, and within a month this number will be increased to 750 or 800 pupils, as many families have not yet returned from their summer outings.

Mrs. McAllister of Miami, who, it is said, traveled across the ocean and in Europe, taking with her only one small suit case, is now besieged with letters from ladies in every part of the United States desiring to know how she accomplished the task, some of the ladies asking a list of the articles of wear to be placed in the grip.

An attempt was made last Sunday night to burn the White Springs Normal College, situated at White Springs. A fire was kindled in the middle hall, kerosene oil being freely used by the perpetrator of the deed, but the immediate discovery and prompt action on the part of several citizens soon extinguished the flames.

The city of Leesburg has bought a spraying pump with which to disseminate fungus on orange groves in and about Leesburg, and has secured funguses with which to fight the white fly. The grove owner is at no expense for having his trees sprayed, except for payment for the time of R. A. Stewart, who is in charge of the pump, and the cost of the funguses. It is said the total cost is only two or three cents a tree. The Leesburg city council did the right thing.

## OUR WEEKLY LETTER FROM NEW YORK

Light Colors for the Autumn Suit—  
New Ruches to Finish the One-Piece Gown—Skirts Growing Long—  
The Winter Hats Usually Satin or Velvet.

BY MONS. GENE DE PONTAC.

For the early autumn cloth suit, the light-colored homespuns, serges and cloths will have their linings before we settle down to the half-tones and subdued shades which are promised for the winter—perhaps as a reaction from the brilliant hues that have flaunted themselves all summer. Light shades of green, blue and tan are worn for these first cool days, and even white is smart and appropriate. If the texture of the material give some effect of warmth. White broadcloth and lady's cloth, made up with elaborate strappings, stitching and braidings are especially effective.

As well as the light cloth suit, a fashion that seems popular this autumn is a dark serge or cheviot gown worn without a jacket and finished off with a stole of marabout or a ruche of ribbon or chiffon. These gowns are usually very simple one-piece affairs, with yoke or sleeves of dyed net or chiffon. A very dainty new ruff lately seen with such a gown was of malines with an edging of ostrich feathers. A new ruff being worn in Paris is comprised of a wide, soft black ribbon, with wide frills on top and bottom, the ribbon tied in a huge bow, either at the back or on the side, and the upper ruff graduated to extreme narrowness under the chin.

Skirts are growing longer, and the short skirt would seem to be doomed, save for the severely plain trotting frock. For the gown intended exclusively for house or carriage wear, there is no question that the

long skirt has a grace impossible to the skirt that does not reach the ground by several inches—and it is a pity that it will not be confined to these uses. The woman who for the past year has appeared in the astonishingly brief skirt, six or seven inches from the ground, will be the first to be seen on the street with a long train clinging and dragging about her; the woman with a sense of the fitness of things will confine her long skirts to the house—where alone they belong. In order to preserve the graceful lines of the long skirt, only the narrowest and softest of underskirts can be worn—satin-finished silk or crepe de chine—and that the train may be more easily managed this skirt is made to clear the ground by a couple of inches.

The close-fitting skirts are seldom trimmed, except sometimes for a panel of embroidery down the front, but many of the tunie skirts are bordered with embroidery, passementerie or frings. Some of the newest skirts show a clever combination of two materials—a cloth skirt having the upper part composed of silk draped about the waist and hips in front and carried down the back in a wide panel.

A new Paris fancy in millinery that may prove to be a forerunner of a winter fashion is the trimming of dark broad-brimmed straw hats with bands of white marabout laid flat on the brim and falling in tails at the back, or sometimes the marabout is used in big, soft bows. This same arrangement will probably be

## RHEUMATIC FOLKS

Are You Sure Your Kidneys Are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive. Don't daily with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Here is Gainesville testimony to prove it:

Benj. Rush, living at 220 W. Union street, Gainesville, Fla., says: "I had suffered from kidney trouble, and sciatic rheumatism for years. At times I was in such a miserable condition that I could not get out of bed. The kidney secretions acted very irregularly, at times being too profuse while again scanty. I spent a great deal of money for different remedies, but did not find any relief until I began using Doan's Kidney Pills procured at J. S. Bodiford & Co's. They went at once to the seat of my troubles and I steadily grew better. I am almost entirely free from rheumatism and the action of the kidney secretions is normal. I attribute this great change in my condition solely to the use of Doan's Kidney Pills."

carried out in fur or felt or velvet hats. Felt is to be less used than for many years—that is, felt of the ordinary dull finish. Satin, taffeta and velvet cover the new shapes, and the smartest hats to be worn in Paris during the autumn are of black in these materials trimmed with colored plumes and large round feather trimmings and pompons.

The vogue of the jabot has revived the old fashion of the large brooch—of coral, of cameo or of the beautiful miniature style, surrounded by brilliants or by a plain gold band.

### Chafing Dish Party.

The Misses DaCosta tendered their visiting guest, Miss Eloise Dowd of Jacksonville, a chafing dish party on Friday evening, which was enjoyed by those present. The large porches were screened in with evergreens and lighted with Japanese lanterns.

Fruit punch was served by Miss Nina Ceron, while Misses Ruth Scarritt, Nell Dempsey and Annie DaCosta presided at the chafing dishes, from which Welch's rabbit was served.

## PORTER'S QUARTERS SCENE OF COMBAT

Henry Beasley Gets Too Much Tiger Aboard Friday Night.

WILL APPEAR BEFORE MAYOR

Opens His Knife and is the "Jesse" of That Part of City Until Police-man Owens Cites Him Otherwise. "Blind Tiger" Booze Got Him Riled.

Henry Beasley, a bad negro who was playing "Jesse" in Porter's quarters in the southwestern section of the city, was arrested by Police-man Owens on Friday night and he will be required to tell the mayor about it Monday morning.

The negro in question had filled up on blind tiger "booze" of the extra cheap variety, consisting of tobacco juice, fusil oil and black pepper, which made him real bad and he wanted to slay everything and everybody within his path with the ugly knife he had in his possession.

He had succeeded in putting several women of the neighborhood to flight and had some of the men backed off when Policeman Owens arrived on the scene and soon put the would-be "Jesse" out of business.

With little ceremony the officer showed him he was not so many, and soon had his man on the way to the station house, where he was lodged to sleep off the effects of his overdose of bad whiskey, and as it will take until about Monday to get him right, his case will not come up for hearing until that time.

### Handsome Bryan Photograph.

Catching William J. Bryan in one of his most pleasing and naturally characteristic attitudes was the good fortune of the photographer responsible for the wonderful true-to-life photograph of the Democratic leader which reached us yesterday.

Neither printer nor publisher spared expense in its reproduction, consequently this picture of Nebraska's favorite son and Florida's favorite candidate is the most handsome of the many which have been seen by us during the present campaign, and will undoubtedly be the most popular.

It is published by A. R. Harper Piano Company, 306 Main street, Jacksonville, Fla., who will consider it a favor to send a copy absolutely free to any reader of this paper who will write them.

### Mothers' Meeting.

The Mothers' Meeting of the W. C. T. U. will meet on Monday, September 21st, with Mrs. I. E. Webster in North Gainesville. Hacks will start from the band stand at 2:30, returning at 5:30 p. m., fare for the round trip being 25 cents. Reports of the different superintendents will be read before the literary program will be rendered, which is being prepared by Mrs. Henderson. A cordial invitation is extended to all ladies interested in the work.

### LETTER TO J. G. HARROLD.

Gainesville, Florida.

Dear Sir: Two men on opposite sides of the same street sell sausages, one at 10c a pound, the other at 5c. Which sells the more sausages, think you?

The answer is: It depends on the street. There are plenty of streets in the world where 5c sausages go like the wind.

Devoe is an honest paint; there are eight honest paints, 300 adulterated and short-measure; Devoe is the best of the eight. Devoe has more strength than the other seven. The painter adds generally a quart of oil to Devoe; he still has a stronger paint than any other one of the seven.

The seven are sold at one price, \$1.75 a gallon; a common price of second-rate paint is \$1.30. It takes eight gallons Devoe to paint a small house, and twelve of average paint; eight gallons cost less than twelve; the price is more than offset by less gallons.

It costs \$2 to \$4 a day to get paint on; a day is a gallon; \$2 to \$16 more to paint the more-gallons paint; \$2 to \$16 less for painting the less-gallons paint.

The difference in first cost of the two jobs is \$14 to \$22 and which wears best do you think? It's the less-gallons paint because of its strength.

There are plenty of people to buy those 5c sausages. Yours truly,

This is to notify the public that we have removed our stock of Crockery, China and Glassware from the Graham building, 116 East Main street N., to our main stores, 120 E. Liberty street, where the entire upper floor will be devoted to this department.

This move will concentrate our business, and at the same time materially decrease our expenses. Taking into consideration these facts does it not look reasonable that we will now be in a position to sell this line at greatly reduced prices? That's the reason.

Come to our store, visit this department, and we will take pleasure in showing you the handsomest and most complete line ever seen in this town.

## ORDINANCE NO. 167.

An ordinance to provide for the paving of Boundary street from Pleasant street, thence east to University street, and the issuance of Special Assessment City Certificates to enable the said City of Gainesville, Florida, to pay the cost of such work pending the collection of the special assessment; and providing for assessments against the property owners abutting on said street, for the cost of such work.

Be it Ordained by the Mayor and City Council of the City of Gainesville, Florida:

Section 1. That the Board of Public Works be, and said board is hereby authorized and directed to pave or to contract for the paving of Boundary street from Pleasant street, thence east to University street, the same to be properly graded and paved with rock, six inches thick in the center tapering to four inches at edge; such paving shall include a curb and gutter, which curb and gutter shall be constructed of brick. Said Board of Public Works is further directed to remove or cause to be removed any and all obstructions or encroachments from said street, and in the paving of said street the same shall be paved twenty-four feet in width.

Section 2. That the cost of said street as provided for in section one of this ordinance shall be paid as follows, viz: one-third of the entire cost of such paving shall be paid by the City of Gainesville, and the remaining two-thirds of such paving shall be paid by the special assessment of same against the property fronting on said street where the same is paved in proportion to the frontage of the property fronting thereon, except in the case of the Atlantic Coast Line Railroad Company, which shall pave thirty (30) feet on each side of their track for the entire width of Boundary street. The estimated total cost of paving of said street is Two Thousand Dollars, and the estimated amount per front foot of the special assessment to be levied upon the abutting property fronting on said street where the same is paved is sixty-six and two-thirds cents.

Section 3. The special assessment for the paving of said street as provided for in section two (2) of this ordinance shall become due and payable as fast as said street is paved, to be paid in the proportion as named in section two (2), viz: one-third by the city and two-thirds by the owner or owners of every lot, piece or parcel of land fronting or abutting on said street where the same is paved.

Section 4. The Mayor and City Council are hereby authorized and directed to issue Special Assessment City Certificates for such amounts as may be due and payable for the paving of said street as fast as same is paved, according to the special assessment against said property as provided for in and by this ordinance to be paid, in order to enable said city to pay the cost of said paving pending the collection of said special assessment; said certificates to draw interest at the rate of six per cent per annum. The amounts to be paid by said property owners for said paving of said street shall be a lien on the lots, pieces or parcels of land fronting or abutting on the same, and said lien shall be enforced by suit in equity as provided by the charter of said city.

Section 5. The City Council shall, as soon as practicable after the completion of the paving of said street, meet and by resolution fix the special assessment per front foot, not to exceed the actual cost of paving said street, as provided by this ordinance. Said resolution shall, immediately after its passage, be published in a newspaper published in this city. Any special assessment paid within thirty days after the publication of said resolution shall be accepted without interest, and any special assessment not so paid shall draw interest at the rate of six per cent per annum from date of the publication of said resolution. All special assessments shall be paid to the Board of Public Works of said city, who shall turn the amounts thus collected over to the city treasurer to pay certificates.

Section 6. The City Council shall meet on the 26th day of October, A. D. 1908, at 7:30 o'clock p. m. of said day, in the council chamber, and at said meeting shall permit any owner or other person interested in the property against which the special assessment provided for by this ordinance shall be levied to present their objections to the enforcement of the requirements of this ordinance.

Section 7. All ordinances or parts of ordinances in conflict with the provisions of this ordinance, be, and the same are hereby repealed, and this ordinance shall take effect immediately upon its passage and approval; provided, however, that the Board of Public Works shall not commence the construction or letting of contracts for the paving of said street or let any contract for the paving of same until thirty days after the meeting of the council provided for in section six hereof.

Passed in open session of the City Council this 17th day of September, A. D. 1908.

T. W. SHAWER, President City Council.

Attest: J. M. DELL, City Clerk.

The above ordinance is witnessed by me this 18th day of September, A. D. 1908.

HORATIO DAVIS, Mayor.

I have learned that certain men are representing themselves as agents, and taking orders for pictures, claiming I will find some cases the pictures have been lost—pictures of which cannot be replaced. Agents, never did, and I deal directly with my agents. I cannot afford to pay the high-grade work I do, enlarging to me and you are insured against loss of the pictures. But will have a guarantee of likeness and an artistic finish. SMITH'S STUDIO, Gainesville, —
